

MISC'S OTHER BRANDS AND BUSINESSES

Our parent, the MISC Group, is a leading maritime transportation solutions provider with a broad portfolio of brands that allows it to meet the world's energy needs

GAS ASSETS & SOLUTIONS

Provides maritime solutions for the transportation of LNG and ethane globally

Owns and/or Operates

- 30** LNG Carriers (LNGCs)
- 2** Floating Storage Units
- 6** Very Large Ethane Carriers
- 1** LNG Bunker Vessel

Vessel Utilisation **>99%**

New **long-term time charters secured** in 2022:

- 12 newbuild LNGCs chartered by QatarEnergy (as part of a consortium)
- Two newbuild LNGCs chartered by SeaRiver Maritime

OFFSHORE BUSINESS

Provides services including engineering, procurement, construction, installation, commissioning, operation, maintenance, decommissioning and demobilisation of offshore floating solutions

One of the world's largest FPSO/Floating Storage and Offloading (FSO) owners and operators with **12** assets

Asset Uptime **>95%**

Health, Safety, Security and Environment (HSSE) Generative Culture

- 0** Fatality
- 0** Lost Time Injury (LTI)
- 0** LTIF
- 19** million man-hours recorded with zero LTI for a major FPSO project

MARINE & HEAVY ENGINEERING

Provides engineering, procurement, construction, installation and commissioning (EPCIC) services for the energy industry, as well as marine repair and conversion services

- Owner and operator of one of the largest dry docks in South East Asia, with the capacity to handle vessels of up to **450,000** dwt
- Owns Malaysia's largest operating yard with fabrication tonnage capacity of **129,700** metric tonne

Recorded more than **46.1** million man-hours annually for the past three years

2 major sustainability-linked projects secured in 2022:

- EPCIC alliance contract services for Kasawari Carbon Capture and Storage (CCS) project awarded by PETRONAS Carigali Sdn. Bhd. This is the world's largest and Malaysia's first offshore CCS project by volume of CO₂ captured.
- Engineering, procurement and construction services relating to an offshore platform powered by solar energy for the Rosmari-Marjoram gas project

INTEGRATED MARINE SERVICES

Provides shipmanagement, engineering and procurement services. Also undertakes project management of newbuilding and dry docking of ships

Has **87** vessels under management and a global sea and shore workforce of over **5,000**

- Delivered **8** vessels in 2022 – 6 DPSTs and 2 dual-fuel VLCCs
- 3** dual-fuel VLCCs and **2** LNGCs scheduled for delivery in 2023

Secured **14** new projects including 12 LNGCs for QatarEnergy and two LNGCs for SeaRiver Maritime

PORT MANAGEMENT & MARITIME SERVICES

Operates ports and terminals, and provides marine assurance and compliance services

- Handled over **49,500** vessels of up to 320,000 dwt since 1992
- More than **63,000** vessel inspections and screenings performed since 1992

Performed **first** STS LNG bunkering in Sungai Udang Port

More than **15.4** million safe man-hours recorded with zero LTI since 1999

MARITIME EDUCATION & TRAINING

Offers a broad range of maritime training and education courses including diplomas, ratings and modular programmes. Also provides research and consultancy services

Offers over **160** courses including customised courses

142 cadets enrolled in 2022

Launched **18** new programmes in 2022:

- 4 Ministry of Higher Education approved diploma programmes
- 4 Marine Department Malaysia approved programmes
- 10 market-ready customised programmes that cater to industry demand
