Countries

● Large commercial presence

● Offices to support operations and client relationships

### Houston

Large commercial presence to service our customers across time zones and a large shipmanagement presence to support our Atlantic operations

### Galveston

Centre of Excellence of all lightering support activities for AET's global STS operations and the home base of AET's fleet of LSVs

### Rio de Janeiro

With our growing presence in Latin America, we have opened a new office in Rio de Janeiro, Brazil, to better meet our customers' needs. This new location allows us to better engage with our customers and key stakeholders and supports our growing DPST fleet and lightering business in Latin America.

### Montevideo

Our presence in Montevideo through a joint venture enables us to support our lightering operations in Uruguay

### London

Commercial presence in the heart of the business district, close to our customers and stakeholders

### Stavanger

Our office in Norway supports our fleet of DPSTs operating in the North and Barents Seas and allows us to deliver better service and strengthen client relationships

### Kuala Lumpur

Our office supports our shipmanagement and crew operations in Malaysia for our fleet operating in the Asia Pacific region

### Labuan

### Singapore

Global headquarters with large commercial, corporate and shipmanagement presence
