

AET Anti-Money Laundering Policy

This policy reflects AET's overarching commitment to preventing and detecting money laundering and terrorism financing activities within the AET Group of Companies.

Policy Statement

AET is committed to adhering to all applicable anti-money laundering laws throughout its business dealings, including preventing its operations from being used for money laundering and terrorism financing, assessing suspicious transactions, and maintaining robust due diligence procedures.

AET strictly opposes any practices related to money laundering, which involves concealing the criminal origin or nature of money or assets through legitimate business transactions, or using funds to support criminal activities, including the financing of terrorism or proliferation of financing related to weapons of mass destruction.

AET is committed to implementing adequate measures to strengthen its anti-money laundering governance, including appropriate training, compliance programmes, and conducting counterparty due diligence to understand the business and background of AET's prospective business counterparties, including the source and destination of funds, property, and services.

Third parties working for or with AET, or acting on its behalf, are expected to provide all necessary information to facilitate such due diligence processes and to uphold AET's values and commitment.

In the event there is any requirement by regulator for any AET Group of Companies to establish a guideline on anti-money laundering, such requirement shall be complied accordingly.

Governance and Implementation

This policy is aligned with the AET Code of Conduct and Business Ethics (CoBE) and is guided by other applicable internal policies, procedures, and guidelines, including the AET Anti-Bribery and Corruption Standard.

This policy applies to every director, employee, and third party working for or on behalf of AET. Joint venture companies in which AET is not a controlling stakeholder, and associate companies of AET, are encouraged to adopt this policy or implement similar principles and standards.

Money laundering is a serious crime, and any violation of applicable anti-money laundering laws may result in administrative action, civil or criminal liabilities, including forfeiture of assets, disruption of business operations, breach of contractual obligations, and significant reputational damage.
